denying existence the logic pdf

Existence is the ability to, directly or indirectly, interact with reality or, in more specific cases, the universe. The exact definition of existence is one of the most important and fundamental topics of ontology, the philosophical study of the nature of being, existence, or reality in general, as well as of the basic categories of being and their relations.

Denial, in ordinary English usage, is asserting that a statement or allegation is not true. The same word, and also abnegation (German: Verneinung), is used for a psychological defense mechanism postulated by psychoanalyst Sigmund Freud, in which a person is faced with a fact that is too uncomfortable to accept and rejects it instead, insisting that it is not true despite what may be ...
