In business and engineering, new product development (NPD) covers the complete process of bringing a new product to market. A central aspect of NPD is product design, along with various business considerations. New product development is described broadly as the transformation of a market opportunity into a product available for sale. The product can be tangible (something physical which one ...

Chemicals can be found in many of the products we use in our everyday lives. Some chemicals pose risks to humans and the environment. Under the Toxic Substances Control Act (TSCA) and the Pollution Prevention Act, EPA evaluates potential risks from new and existing chemicals and finds ways to prevent or reduce pollution before it gets into the environment.

Chemicals under the Toxic Substances Control Act (TSCA)

A boycott was launched in the United States on July 7, 1977, against the Swiss-based Nestlé corporation. The boycott expanded into Europe in the early 1980s and was prompted by concern about Nestlé's "aggressive marketing" of breast milk substitutes, particularly in developing countries, largely among the poor. [citation needed] The boycott has been cancelled and renewed because of the ...
