

### **development with global value pdf**

The key to building more inclusive GVCs, finds the Global Value Chain Development Report, is cutting trade costs. Although they have declined over the past decades, non-tariff trade costs related to infrastructure, transportation, and uncertainty remain relevant with the surge of fragmented supply chains and greater competition.

Every piece of research contains data whether qualitative or quantitative. How that data is derived and used varies from case to case. With increasing time pressures and a need to validate assumptions, there is growing concern that sound ethics are seen as a luxury but as a recent discussion at IDS concluded, good data ethics are essential if research is to have meaningful impact on lives.

The original VALUE initiative involved teams of faculty and other educational professionals to develop 16 VALUE rubrics for the LEAP Essential Learning Outcomes. Each rubric was developed from the most frequently identified characteristics or criteria of learning for each of the 16 learning outcomes. Drafts of each rubric were then tested by faculty with their own students.
