This book is a comprehensive algebra 1 course despite the implications of the words "Book 1" in its title. You can use it for self-instruction, because the answers to the odd-numbered problems are given at the back of the book -- and there are lots of problems.

Algebra: Structure and Method, Book 1: Richard G. Brown

The first term is the product of the given sine and radius of the desired arc divided by the cosine of the arc. The succeeding terms are obtained by a process of iteration when the first term is repeatedly multiplied by the square of the sine and divided by the square of the cosine.
